

Heidi's Science Experiment

Topic:

How

does

it

grow?

Where

does

it

grow?

Learning

objective:

To

grow

+

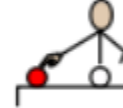

and care for

2

two

plants

that

are

growing

in

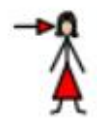

2

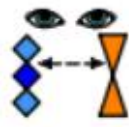

two

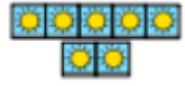

different environments.

 Heidi  works  in  Orange  Class

 She  decided to  plant  some  sweet  peas.

To  compare  growth  Heidi  decided to  plant  some  inside  and  some  outside

to  see  which ones  would  grow the  best.

1

Week 1:

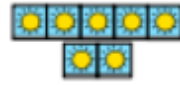

Inside

Outside

A tiny green shoot has appeared!

Week

2

2:

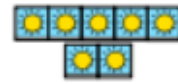

Inside

Outside

The shoot has grown taller and there are two leaves.

3

Week

3:

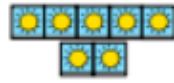

Inside

Outside

The shoot has now grown four leaves and more shoots have appeared.

Week

4

4:

Inside

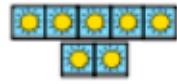

A tiny shoot has appeared!

Outside

The shoots have grown taller and more have appeared. Lots of leaves have grown.

Week

5

5:

Inside

Outside

The shoot has grown taller and two leaves are growing.
