# How to make a rain shaker

You will need:

Rice or pasta or corn or bean or beads

A cardboard tube

Tin foil or toothpicks
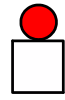

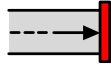

Paper

Tape
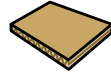

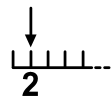

Scissors

**1** First, make a cap using the paper, scissors and tape on one end of the cardboard tube.
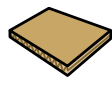

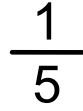

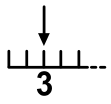

**2** Second, fill the cardboard tube 1/5 of the way up with either rice, pasta, corn, beans or beads.
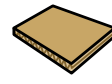

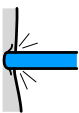

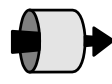

**3** Third, add twisted foil in the cardboard tube or poke toothpicks through the tube.

**4** Fourth, check if you need to add more filling.

**5** Fifth, make a cap for the other end of the tube.
