

Literacy

Read and listen to stories that the teachers are reading on the website each week.

Watch Amy's phonic videos. Have a go at matching, signing or matching the sounds. Can you find anything in your house beginning with the sounds?

Go out on a listening walk- what can you hear?

Practice your mark making with pencils, pens, paint or anything you can. You could get messy with shaving foam, flour or cornflour.

Personal, social and emotional development

Have a look at some faces. What are they feeling? Can you make these faces? How are you feeling?

Play a game with your parents or siblings. Can you share and take turns?

You could draw some emotion faces on eggs. Can you match the emotions?

Physical development

Run around in the garden, what happens when you run?

Join in with Joe Wicks doing his morning workout on Youtube.

Join in with Cosmic kids yoga- We have done Bunny bounce, Washing machine and Hotair ballooning in class.

Mathematics

Count, count and count. Count objects as you play or help. See if you can pick the correct numbers when a grown up writes it down.

Sing lots of counting songs. Log into 'Helpkidzlearn' They have made certain bits free. We often use the 'Games and activities' to support our number knowledge.

Watch the days of the week videos of Brenda. Can you find, match and sort different colours?

EYFS and Key Stage One

Communication and language

Practice asking for things and using Proloquo2go if you have it. Grown ups- model, model, model.

Practice your PECs. We can make any requested symbols and email them to you.

Do some intensive interaction. Parents, copy your child's actions, give them opportunities to want to interact and try and join their world.

Understanding the world

Grow some seeds- can you plant some sunflowers, tomatoes or potatoes?

Try some vegetables or fruit. Can you do some cooking using these?

Try floating and sinking some vegetables. Which ones float and which sink?

Attention Autism

These sessions will support children in attention building, turning taking and sequencing. Children will build attention through watching stimulating items in the box then a main activity.

Main activity to be very visual and to follow a sequence for pupils to copy.

Google 'Gina Davies' and attention autism. There will be video of Georgie doing this online too.

Expressive Arts and design

Paint a rainbow and put it in your window.

Get messy with different types of media.

Do some 'stained glass' Easter designs using tissue paper and put them in the window

Paint an Easter egg. Boil the egg first then decorate.
