

Week 8: Maths

In Maths this week we are going to be looking at shapes in nature, particularly

leaf shapes. Have you listened to Bex reading 'The Very Hungry Caterpillar' story?

Activity 1: Explore lots of different leaf shapes that you can find. Group your leaves into

different amounts using 'more' and 'less' or by whether they are 'big' and 'small'.

Activity 2: Gather lots of different leaves. Sort them according to their shape and count

how many of each leaf shape you have found. Can you match the numeral to the

amount?

Activity 3: Compare the amounts of different leaf shapes using 'more than' or 'less than'.

Write a number sentence to show the difference in amounts.

(See The Very Hungry Caterpillar Story and activity video)
