

S3 Topic Work – Week 8

Going to the Beach

This week we are asking the children to prepare for a trip to the beach taking the weather and temperature into consideration.

They have been asked to collect things which they would take and to say why they would take the things they have chosen. Some can write this down themselves, some might be able to spell simple words, once they have decided what they want to say, for you to write for them. Give your child the freedom to make their own decisions but assist them to keep going and give them clues if they are struggling in any aspect.

Some children might just enjoy collecting things and dressing up (as long as they know they are not really going if this is not possible – if it is then all the better).

Thank you and enjoy your 'trip' to the beach ;-)
