

## Guidance For Maths Activities.

### Activity 1

This is the link to the 'One Mole digging a hole' song, sung by the Author Julia Donaldson

<https://kidsclubenglish.com/stories/one-mole-digging-a-hole-2/>

### Activity 2

Print out the activity sheets and cut them into squares.

You could then get your child to help order the numerals 1-10 and put them in a line.

Muddle up the other cards and take one at a time and count the objects on the card. Encourage your child to count each object as they count.

Your child can then find the correct numeral from your number line.

Some children may find it easier to work with just numbers 1-5.
