

## Guidelines for your project.

1. Choose something that interests you, it could be a hobby or something in the news, for example.
2. Make a simple folder or use a scrapbook to keep your project work together
3. Write down what you already know about it in the first section.
4. Write down 3 new things you would like to learn in the next section.
5. Use books, TV, internet and people you know to find out about the 3 things you want to learn.
6. Find people on the internet who already know about your project area and send them an e-mail, if you get a reply, include it in your folder.
7. Keep your project safe and when you come back into school share it with the rest of the class.
