

In Maths this week we are going to be thinking about Shapes. Have you

watched and listened to me reading the 'Flat Stanley' story?

1 Listen, watch and join in with the 3D Shape Songs.

2 Gather some 2D shapes and 3D shapes from around your house or use

shapes that you have at home. Sort them according to whether they are a 2D

shape or 3D shape.

3 Can you name and describe any of the 2D shapes and 3D shapes that

you have sorted?

(See the story video, Elaine's pressed and flat video and the activity videos)
