

Halves and Doubles

Learning Intention: I can find halves and doubles.

Halves and doubles are the opposite of each other. If we know half of 10 is 5, then we know that double 5 is 10!

$$\boxed{3} + \boxed{3} = \boxed{6}$$

half of

$$\boxed{6} \text{ is } \boxed{3}$$

$$\boxed{4} + \boxed{4} = \boxed{}$$

half of

$$\boxed{} \text{ is } \boxed{}$$

$$\boxed{5} + \boxed{} = \boxed{}$$

half of

$$\boxed{} \text{ is } \boxed{}$$

Draw 12 fish

Draw 14 cats faces

Draw 16 paw prints

$$\boxed{} + \boxed{} = \boxed{}$$

half of

$$\boxed{} \text{ is } \boxed{}$$

$$\boxed{} + \boxed{} = \boxed{}$$

half of

$$\boxed{} \text{ is } \boxed{}$$

$$\boxed{} + \boxed{} = \boxed{}$$

half of

$$\boxed{} \text{ is } \boxed{}$$
