Week 12: Maths

In Maths this week we are going to be thinking about capacity and/or position

and directions. Have you listened to Elaine reading 'The Jumbles' story?

Activity 1: Watch Elaine's capacity video. Explore the concept of empty, half full and full

through water play using different size buckets and containers.

Activity 2: Think about where you would go in your boat. Either go on a

journey outside in your garden, create a map of your own or use the one provided.

Use positions and directions to describe your journey.

Activity 3: Tell your directions to a family member or friend. Can they follow them to

get to your final destination?

(See the story video and the activity videos)
