

Beach Scene

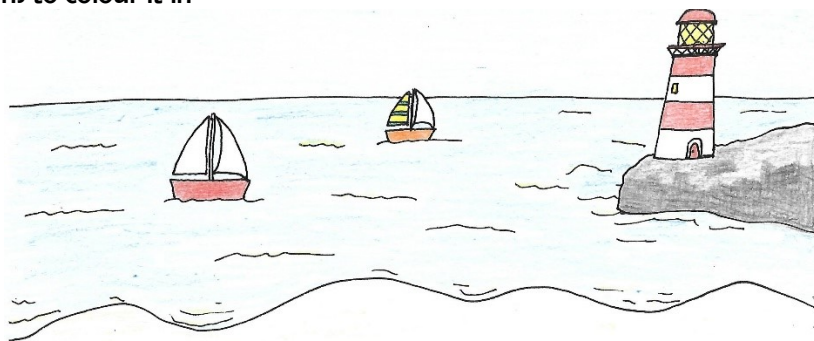

Make a picture using the beach hut, boat and lighthouse that we have learned how to draw over the last few weeks. Use as many boats and beach huts as you like to make the picture, but only use 1 lighthouse. Play around with the composition, (how the different pieces look on the page), then colour it in to create your own seaside scene.

Here is what I drew

Then I added pencil crayons to colour it in

Have a go and see what beautiful seaside scenes you can create.
