Topic Work Week 14 and the Summer Holiday

Making Music

For this week and the Summer holiday I am going to

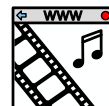

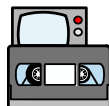

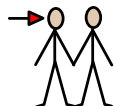

give you a challenge. I know most of you

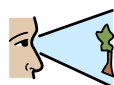

like music and we have had Live Music Now

in school to play for us a few times.

They have made some videos on YouTube for people to

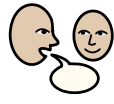

see. and listen to. .

I

will

tell

the

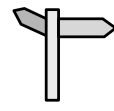

people

who

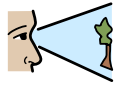

look after

you

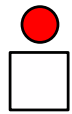

where

these

are so that you can see them.

Over

the

Summer

holiday

you will have

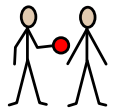

time

to

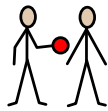

make

your own

instruments

(your

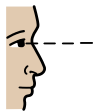

adult

can

help

you too).

If you

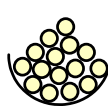

look

on the

internet

there

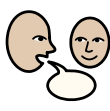

lots

of

websites

which

will

tell

you how to

make

different

instruments

using

things

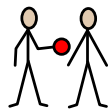

you can

find

in

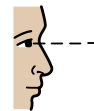

your

house.

You could

look

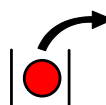

in

the

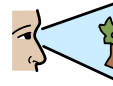

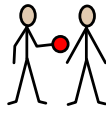

garden

or when you are

out

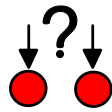

as well.

Once you have made your instruments see if you can

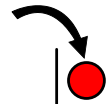

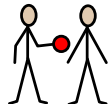

compose some music and use them to play the music.

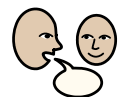

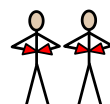

Think about somewhere you have been and the sounds you

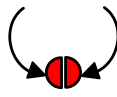

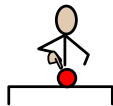

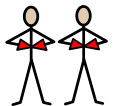

heard when you were there. You will have to be quiet and

listen carefully. Bring your instruments into school with

you in September and play us some music. Tell

us what the music makes you think of too if you can.
